

ITERMORI
S.A.R.L.

Company Profile

EDUCATION · TRAINING · DEVELOPMENT

We design and deliver educational, training and awareness programmes, publish knowledge, and develop digital learning solutions for schools, institutions and communities.

A Lebanese company serving education and society.

Itermori works across education, training, research and publishing. We create and manage educational programmes, organise courses, conferences and exhibitions, and provide educational consultancy to schools, teachers, administrators and students.

We partner with ministries, municipalities, donors, universities and companies to develop skills, promote citizenship and social responsibility, and bring innovation, including artificial intelligence, into learning.

01

Quality

Programmes built on sound educational foundations.

02

Innovation

Digital tools and AI in the service of learning.

03

Impact

Citizenship, responsibility and service to society.

“We believe education is the most powerful way to build responsible citizens and a stronger society.”

Our mission

Our areas of work

From the classroom to the community, and from print to digital.

01

Training & skills development

Training courses and workshops in education, crafts, culture, environment, health and science.

02

Educational consultancy

Advice for educational institutions, teaching staff, administrators and students.

03

Publishing & research

Publishing books, scientific and cultural works, studies and research.

04

Awareness & citizenship programmes

Programmes that strengthen citizenship values and social responsibility among students and teachers.

05

Digital learning & AI

Educational apps, e-games, software and artificial-intelligence solutions for learning.

06

Conferences, exhibitions & events

Organising projects, exhibitions and conferences in education and beyond.

07

Educational institutions

Establishing, developing and managing schools, institutes and training centres.

08

School & public libraries

Setting up and equipping school and public libraries.

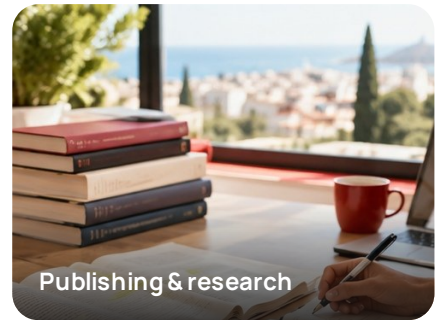

09

Innovative projects

Supporting innovative and educational projects with academic and scientific partners.

Learning that happens

Illustrative images.

Partners in education and development

Schools & teachers

Programmes, training and resources for educators and learners.

Universities & academic bodies

Joint research, projects and scientific cooperation.

Ministries & municipalities

Agreements and programmes serving public institutions.

Donors, NGOs & companies

Funded projects with clear goals and measurable results.
